

## Why Choose TailoredTours

Tours are available as a standard package but also tailored to your wish list, life interest or passion. Tailored tours creates a memory for life which is my ultimate aim. How many time do you checklist a tourist attraction only to forget it the following day. With a tailored tour you can relive your passion and bring something new and life changing.

Some previous tailored tours Russ has designed are:

- 1. Medieval cooking** – How did the court of Henry VIII cook for 600 courtiers and what was on the menu
- 2. 1930's Nostalgia** – Let's get dressed up in 1930's clothes of the flapper era and dance the night away in the most romantic art deco hotel in the UK
- 3. Spiritual landscape and buildings**– Connect with some of the most beautiful places and sceneries in England which can bring about inner change and transformation.
- 4. Victorian Engineering** – Understand the industrial revolution and see where it happened in England with the advent of steam power, locomotion and mass production.

There is something for everyone's passion or life interest available in the UK, many more tailored tours designed on request.

Russ combined his technical understanding as a Chartered Engineer with his spiritual experience as a Buddhist. Connecting with his clients with authenticity is his purpose and his tours are fun, creating memories for life.
